

[TUOMS Journals to Include Dimensions](#)

Scholarly journals published by TUOMS Publishing Group to include Dimensions

Journals published by TUOMS Publishing Group will include Dimensions API, a new service which provides detailed analytical research and citation information.

Dimensions, launched recently by Digital Science, is to offer functionality comparable with that of Web of Science and Scopus.

The update to the platform started in late February and will continue to roll to all journals published by TUOMS Publishing Group.

TUOMS Publishing Group is a division of Tabriz University of Medical Sciences and publishes a catalogue of scholarly peer-reviewed journals in the field of medical sciences.
